EDUCATION

Gujarat Technological University

Bachelor in Computer Engineering

July 2023 - June 2027

Surat, Gujarat

RELEVANT COURSEWORK

- Data Structures
- Algorithms Analysis
- Generative AI
- System Design
- Web Development
- Database Design
- Python for Data science

PROJECTS

AI Advertisement Generator | React, TypeScript, Tailwind CSS, Python, Gemini Nano

October 2025

- Built an AI-powered application to generate compelling advertisement content from user-uploaded images.
- Integrated the Gemini Nano generative AI model to analyze visual context and produce relevant, engaging ad copy.
- Designed a clean and responsive user interface using React, TypeScript, and Tailwind CSS.
- Implemented a Python-based backend for image processing, prompt handling, and AI model communication.
- Enabled seamless image upload and real-time advertisement generation workflow.
- Gained hands-on experience in Generative AI integration, image-based content creation and development.

Milo | React, TypeScript, Tailwind CSS, Node.js, Express, MongoDB

August 2025

- Developed a fully functional dashboard to manage tasks and goals, improving productivity and organization.
- Implemented calendar integration for seamless planning and scheduling.
- Built secure authentication workflows with OTP login and password reset functionality.
- Delivered a clean, modern, and desktop-friendly UI using React, TypeScript, and Tailwind CSS.
- Engineered a robust Node.js backend to power app functionalities with RESTful APIs.
- Strengthened expertise in full-stack development, TypeScript, and authentication systems through real-world application delivery.

Notes App | React, Node.js, Express, MongoDB, Tailwind CSS

July 2025

- Built a full-stack notes management application with secure JWT-based authentication and protected routes.
- Designed user profiles with editable information and personalized dashboards.
- Implemented full CRUD operations for notes, including search, filtering, and favorites to enhance productivity.
- Delivered a clean, responsive UI using Tailwind CSS for an intuitive user experience across devices.
- Engineered scalable MongoDB schemas and optimized backend logic for reliability and performance.
- Strengthened skills in state management, reusable components, and front-end optimization through real-world development.

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, SQL, Python, MongoDB, PostgreSQL

Developer Tools: VS Code, Cursor, Google Colab Notebook, Jupyter Notebook

Technologies/Frameworks: Git, GitHub, React.js, Next.js, Express.js, Numpy, Pandas

LEADERSHIP / EXTRACURRICULAR

Tech-Fest Event Organizer, DGSEC Surat

February 2025

Code Combat

Surat, Gujarat

- Organized a college-level tech-fest event focused on coding with over three engaging rounds: Quiz, Debugging, and Problem-solving.
- Collaborated with a team to plan and execute the event and managing logistics.
- Soft Skills: Teamwork, Time Management, Leadership, Problem-solving
